

## January 2023 Robotics Investments

COMPANY	AMOUNT	TYPE	COUNTRY	TECH, PROD & SERVICES	DESCRIPTION
<a href="#">Able Innovations</a>	\$590,000	Grant	Canada	Other Commercial	Able Innovations develops robotic medical devices for patient transfer in healthcare.
<a href="#">Altitude Angel</a>	\$5,983,294	Other	UK	Software, Sensors / Sensing Systems	Altitude Angel makes drones safer via data and cloud services.
<a href="#">Baraja</a>	Estimate	Other	Australia	Sensors / Sensing Systems	Baraja offers a LiDAR solution for autonomous transportation systems.
<a href="#">BionicM</a>	\$2,838,729	Series A	Japan	Prosthetic / Orthotic Systems	BionicM develops high-performance robot prostheses that enhance mobility for people with disabilities.
<a href="#">Delivery Couple</a>	\$323,075	Pre-Seed	Poland	Outdoor Mobile Platforms	Delivery Couple produces semi-autonomous sidewalk delivery robots for marketplaces, restaurants and food delivery services.
<a href="#">FERNRIDE</a>	Estimate	Other	Germany	Sensors / Sensing Systems, Software, Operator Services - UGVs	FERNRIDE offers teleoperation technologies and services for autonomous, electric trucking.
<a href="#">Flyhound</a>	\$700,000	Pre-Seed	USA	Small Unmanned Aerial Vehicles, Medium Unmanned Aerial Vehicles, Operator Services - UAVs	Flyhound Time offers drone technologies for location operations for emergency services providers.
<a href="#">Future Kitchen</a>	Estimate	Other	Korea	Other Commercial	Future Kitchen produces a kitchen automation platform that automatically takes food orders and completes manufacturing using AI and robots.
<a href="#">Ganymed Robotics</a>	\$15,909,531	Series B	France	Surgical / Interventional Systems, Video / Vision / Imaging	Ganymed Robotics develops smart robots for orthopedic surgery.
<a href="#">Gaussian Robot</a>	Estimate	Series D	China	Indoor Mobile Platforms	Gaussian Robot develops intelligent cleaning robots.
<a href="#">Jiyu Technology</a>	Estimate	Seed	China	Other	Jiyu Technology focuses on the R&D and industrialization of a universal "control-by-wire chassis" for unmanned driving.
<a href="#">KEWAZO</a>	\$10,000,000	Series A	Germany	Other Industrial, Software	KEWAZO provides intelligent robotic hoists for construction and industrial sites.
<a href="#">Kind Technologies</a>	Estimate	Other	The Netherlands	Collaborative Robots, Sensors / Sensing Systems	Kind Technologies automates greenhouse horticulture using computer vision, robotics data, and AI.
<a href="#">Lionsbot</a>	\$17,000,000	Series A	Singapore	Indoor Mobile Platforms	LionsBot offers cleaning robots as a service for commercial, industrial, and public spaces.
<a href="#">Lumotive</a>	\$13,000,000	Other	USA	Sensors / Sensing Systems	Lumotive is developing solid-state lidar for autonomous systems in the automotive, UAV, robotics, and related industries.
<a href="#">Machina Labs</a>	Estimate	Other	USA	Articulated Robots, Software	Machina Labs' solution combines AI and robotics to rapidly manufacture advanced sheet metal products.
<a href="#">Nautical Wings</a>	Estimate	Other	India	Actuators / Motors / Servos	Nautical Wings provides advanced electric propulsion systems for unmanned systems for surveillance and reconnaissance applications for military and civilian operations.
<a href="#">Novarc Technologies</a>	\$200,000	Grant	Canada	Collaborative Robots, Sensors / Sensing Systems	Novarc specializes in the design and commercialization of collaborative robots for industrial applications.
<a href="#">OTIV</a>	Estimate	Series A	Belgium	Sensors / Sensing Systems, Software	OTIV provides driver assistance and autonomous systems for railway transport operations.
<a href="#">Otopia</a>	\$14,500,000	Series A	Israel	Software	Otopia is a teleoperation software company providing a platform that enables humans to safely control any type of vehicle from afar.
<a href="#">Outrider</a>	\$73,000,000	Series C	USA	Autonomous Transportation Systems (Auto, Truck, Monorail etc.), Software	Outrider develops autonomous electric yard trucks, software and site infrastructure systems for distribution yards.
<a href="#">Oxbotica</a>	\$140,000,000	Series C	UK	Sensors / Sensing Systems, Software	Oxbotica provides a full stack autonomy solution for autonomous vehicles.
<a href="#">PHINXT Robotics</a>	\$747,709	Pre-Seed	UK	Indoor Mobile Platforms, Software	PHINXT Robotics offers autonomous mobile robotics solutions engineered for small/medium warehousing, 3PLs, distribution and manufacturing firms.

<a href="#">Photoneo Brightpick Group</a>	\$19,000,000	Series B	USA	Indoor Mobile Platforms, Sensors / Sensing Systems	Photoneo Brightpick Group provides automation solutions incorporating mobile robotics systems for ecommerce and grocery fulfillment.
<a href="#">Raise Robotics</a>	\$2,200,000	Pre-Seed	USA	Collaborative Robots	Raise Robotics develops robotic systems for fenestration and mass timber contractors that automates bracket and layout operations.
<a href="#">RDARS</a>	\$1,000,000	Other	USA	Indoor Mobile Platforms, Small Unmanned Aerial Vehicles	RDARS offers autonomous robotics and drone technology for alarm system augmentation and surveillance.
<a href="#">Robolem</a>	Estimate	Seed	Switzerland	Indoor Mobile Platforms, Software	Robolem produces intelligent chassis for automating transport tasks for the retail, healthcare, and hospitality sectors.
<a href="#">Scythe Robotics</a>	\$42,000,000	Series B	USA	Outdoor Mobile Platforms	Scythe Robotics develops autonomous machines for maintaining off-road environments.
<a href="#">SentinelSky</a>	Estimate	Seed	USA	Small Unmanned Aerial Vehicles, Medium Unmanned Aerial Vehicles, Operator Services - UAVs	SentinelSky provides first responder drone services.
<a href="#">Shark Robotics</a>	\$10,829,695	Other	France	Outdoor Mobile Platforms	Shark Robotics is a robotics and UGV company that develops terrestrial robots for the public safety, defence and space sectors.
<a href="#">SILEANE</a>	Estimate	Other	France	Articulated Robots, Sensors / Sensing Systems, Software	SILEANE offers robotics technologies and engineering services for bin picking, pick and place operations and more.
<a href="#">sliQue Robotics</a>	Estimate	Pre-Seed	USA	Indoor Mobile Platforms, Software	sliQue Robotics is a machine learning and robotics firm specializing in solutions to optimize hospitality operations.
<a href="#">Spartan Radar</a>	\$17,000,000	Series B	USA	Software	Spartan Radar provides SW that removes artifacts from sensor scans while extracting the most important data.
<a href="#">Spike Dynamics</a>	\$200,000	Seed	USA	Actuators / Motors / Servos	Spike Dynamics produces lightweight artificial muscles and other actuators for robots and automated systems.
<a href="#">SwissDrones</a>	Estimate	Other	Switzerland	Small Unmanned Aerial Vehicles, Medium Unmanned Aerial Vehicles, Operator Services - UAVs	SwissDrones develops, manufactures and deploys long-range, unmanned helicopter systems for beyond visual line of sight inspection, surveillance and public safety applications.
<a href="#">Terra Drone</a>	\$14,000,000	Series C	Japan	Operator Services - UAVs	Terra Drone is a drone and software manufacturer.
<a href="#">Tutor Intelligence</a>	\$4,162,206	Pre-Seed	USA	RaaS, Collaborative Robots	Tutor Intelligence is an information technology company that specializes in the fields of robotics, AI, and machine learning.
<a href="#">Waabi</a>	Estimate	Other	Canada	Sensors / Sensing Systems, Software, Microcontrollers / Microprocessors / SoC	Waabi produces software, sensors and compute technologies for driverless trucks.
<a href="#">Zhejiang Huandong Robot Joint Technology</a>	\$43,264,210	Other	China	Actuators / Motors / Servos	Zhejiang Huandong Robot Joint Technology (Huandong Technology), an operating unit of Shuanghuan Transmission, specializes in the development and industrialization of robot joint reducers and high-precision hydraulic components.
