

August 2023 Robotics Investments					
Company Name	Amount	Type	Country	Tech-Prod-Services	Description
ADUS	Estimated	Seed	South Korea	Sensors / Sensing Systems, Software	ADUS offers autonomous driving technologies and services.
Aerit	\$1,336,705	Pre-Seed	Sweden	Operator Services - UGVs, Data Acquisition / Processing / Management	Aerit provides drone delivery services.
Airobotics	\$553,873	Grant	Israel	Operator Services - UGVs, Data Acquisition / Processing / Management	Airobotics provides an end-to-end, fully automatic solution for collecting aerial data and gaining invaluable insights.
Altos Radar	\$3,500,000	Seed	USA	Sensors / Sensing Systems	Altos Radar offers 4D Imaging Radar technology for autonomous driving.
Artly Coffee	Estimated	Other	USA	Collaborative Robots	Artly Coffee offers a robot barista that learns various coffee-making techniques from human baristas
Asensing	Estimated	Series D	China	Microcontrollers / Microprocessors / SoC	Asensing develops high-precision positioning technology for autonomous vehicles.
AutoCore	Estimated	Other	China	Software	AutoCore is a provider of software and electronics for intelligent mobility.
Avion	\$4,729,998	Other	USA	Operator Services - Drones	Avion is an autonomous aerial network that delivers medicals and vaccine supplies via drones.
Büyütech	\$3,630,000	Other	Turkey	Sensors / Sensing Systems, Video / Vision / Imaging	Büyütech develops and manufactures passive-only perception solutions to make the roads safer.
Copperstone Technologies	\$1,912,485	Grant	Canada	Outdoor Mobile Platforms	Copperstone Technologies provides robotic services for survey and investigation of challenging and remote locations.
Drone City	\$50,000	Grant	USA	Drones, Operator Services - Drones	Drone City provides last-mile drone delivery services.
Endorobotics	\$8,300,000	Series B	South Korea	Actuators / Motors / Servos	Endorobotics offers micro-robotic technology and precision control technology for endoscopic surgery.
Farada Group	\$248,605	Pre-Seed	Poland	Drones, Operator Services - Drones, Data Acquisition / Processing / Management	Farada Group is an Unmanned Aerial Vehicles manufacturing company.
Fieldwork Robotics	\$1,900,538	Other	United Kingdom	Outdoor Mobile Platforms, Arms/Manipulators	Fieldwork Robotics is developing autonomous harvesting robots.
FireFly Automatrix	\$633,516	Other	USA	Outdoor Mobile Platforms	FireFly Automatrix manufactures automated, self-propelled, and autonomous equipment for the turfgrass sector.
FUE Bioscience	Estimated	Series A	China	Surgical / Interventional Systems	FUE Bioscience is a medical robot R&D business that specializes in microsurgery above the head and neck.
GITAI	\$15,000,000	Series B	Japan	Articulated Robots, Outdoor Mobile Platforms	GITAI develops remote controlled robots to replace astronaut's operations in commercial space stations.
Helm.ai	\$55,000,000	Series C	USA	Sensors / Sensing Systems, Software	Helm.ai develops AI software for driver assistance systems, autonomous driving, and robotics.
Hunan Tree Industrial Manufacturing	\$13,905,884	Series A	China	Articulated Robots, Other Industrial	Hunan Tree Industrial Manufacturing specializes in robotics and automation equipment for casting, sanding, and polishing.
Imagine Aerial	Estimated	Grant	USA	Drones, Operator Services - UGVs, Data Acquisition / Processing / Management	Imagine Aerial uses advanced drone technology to acquire detailed datasets that it distributes to its clients.
Imagry	\$15,000,000	Other	USA	Software	Imagry is an Autonomous Driving (AD) software provider that offers a mapless driving system.
Innoviz Technologies	\$65,000,000	Other	Israel	Sensors / Sensing Systems, Software	Innoviz develops LiDAR sensors and perception software for autonomous vehicles.
Integrated Aerial Precision	Estimated	Other	Nigeria	Operator Services - Drones, Data Acquisition / Processing / Management	Integrated Aerial Precision provides drone services and data analytics for precision agriculture.
Intuition Robotics	\$25,000,000	Other	Israel	Lifestyle Enhancement, Humanoids / Bipeds	Intuition Robotics provides care companion technologies for older adults.
Jacobi Robot	Estimated	Seed	China	Software	Jacobi Robot develops general AI and cross-embodiment control systems for robots.
Jiaan Smart	\$13,901,438	Series A	China	Actuators / Motors / Servos	Jiaan Smart provides integrated force control technology solutions for robotics systems.
Kernel Foods	\$36,000,000	Series A	USA	Other Commercial	Kernel Foods is a fast food startup that utilizes robotics technologies to automate food production.
Lukai Zhixing	Estimated	Series A	China	Outdoor Mobile Platforms	Lukai Zhixing is a special unmanned vehicle overall solution provider focused on mining operations.
MaxByte Technologies	\$5,000,000	Series A	India	Indoor Mobile Platforms, Automated Guide Vehicles, Forklift AGVs	Maxbyte Technologies is an Industrial IoT company empowering customers through implementing factory of the future.
Mendaera	\$24,000,000	Series A	USA	Collaborative Robots	Mendaera is developing robotics solutions that address inefficiencies in healthcare.
Moore Robot	\$13,702,196	Series B	China	Indoor Mobile Platforms, Forklift AGVs	Moore Robot develops autonomous mobile robots and lift trucks for industrial applications.
Novabot	\$10,000,000	Seed	USA	Outdoor Mobile Platforms	Novabot offers mobile robots for lawn mowing.
Novarc Technologies	\$20,000,000	Series A	Canada	Collaborative Robots	Novarc specializes in the design and commercialization of collaborative robots for industrial applications.
Nuwa Robotics	\$6,257,156	Series B	Taiwan	Social / Entertainment Robots, Indoor Mobile Platforms	Nuwa Robotics offers a personal robot, along with an autonomous mobile robot.
Olis Robotics	\$4,100,000	Other	USA	Sensors / Sensing Systems, Software	Olis Robotics' solution operates robotic systems and remotely monitors, diagnose, and controls industrial robots.
Orangewood Labs	\$4,500,000	Other	USA	Articulated Robots, Software	Orangewood Labs is focused on automating mundane human jobs through Easy-to-use, collaborative and tele-operable robotic arms for Industries
PaXini Tech	\$3,000,000	Seed	China	HRI \ Haptics, Sensors / Sensing Systems	PaXini Tech provides tactile technology and adaptive robots.
POMO Robotics	Estimated	Other	United Kingdom	Consulting / Engineering	Robotic system integrator and autonomous vehicle startup.
Pony.ai	\$139,000,000	Other	USA	Sensors / Sensing Systems, Microcontrollers / Microprocessors / SoC, Software	Pony.ai develops autonomous vehicle technology.
PROCEPT BioRobotics	\$150,000,000	Other	USA	Surgical / Interventional Systems	PROCEPT BioRobotics is a surgical robotics company that develops water-based robotic systems for prostate surgery.
Refiberd	Estimated	Seed	USA	Sensors / Sensing Systems, Articulated Robots	Refiberd develops a robotics-based textile recycling system that sorts and recycles unsorted, discarded textiles into new ones.
Remora Robotics	\$2,828,492	Seed	Norway	Unmanned Underwater Vehicles	Remora Robotics provides autonomous submarine robots that clean and inspect fish farming pens while collecting data about the pen's aquatic environment.
Ronovo Surgical	\$27,427,167	Series B	China	Surgical / Interventional Systems	Ronovo Surgical provides robotic and digital solutions for minimally invasive (MIS) and digital surgery.
Saeki Robotics	\$2,300,000	Seed	Switzerland	Articulated Robots, Collaborative Robots, Services - Other	Saeki Robotics is a manufacturing company that offers robotic digital manufacturing units and hardware and software automation tools as a service.
Serve Robotics	\$30,000,000	Other	USA	Outdoor Mobile Platforms	Serve Robotics develops self-driving robots that deliver food and supplies.
Skyline Robotics	\$3,350,000	Seed	Israel	Articulated Robots	Skyline Robotics specializes in automating real estate maintenance work at heights.
Smooth Ag Solutions	\$38,500	Grant	USA	Outdoor Mobile Platforms	Smooth Ag Solutions produces an autonomous feed rover and other technologies for ranch operations.
Soft Robot Tech	\$20,852,158	Series C	China	End Effectors, Sensors / Sensing Systems	Soft Robot Tech is an Industrial automation supplier offering flexible gripping solutions and other technologies.
Southeast Feishi	Estimated	Seed	China	Operator Services - Drones	Southeast Feishi offers drone inspection services.
Speedbird Aero	\$2,051,955	Other	Brazil	Drones, Operator Services - Drones	Speedbird Aero develops and operates unmanned aerial systems to deliver products.
Spike Dynamics	\$280,000	Seed	USA	Actuators / Motors / Servos	Spike Dynamics provides actuators and artificial muscles for aerospace and robotics applications.
Sweepie	Estimated	Other	Poland	Indoor Mobile Platforms	Sweepie is a manufacturer of self-driving sweeping robots.
Tongchuan Precision	Estimated	Series A	China	Actuators / Motors / Servos	Tongchuan Precision offers motion control solutions for industrial robots.
True Digital Surgery	\$2,501,865	Series B	USA	Collaborative Robots, Surgical / Interventional Systems	True Digital Surgery builds a 3D digital surgery visualization platform that provides visualization for a wide range of surgical procedures.
ULS Robotics	Estimated	Series A	China	Exoskeletons	ULS Robotics provides a variety of industrial exoskeletons.
United Robots	Estimated	Seed	United Kingdom	Indoor Mobile Platforms	United Robots offers a variety of mobile robotics for cleaning and portage operations.
Vicarious Surgical	\$45,000,000	Other	USA	Surgical / Interventional Systems	Vicarious Surgical is a robotics company that develops robotic systems that allow surgeons to perform minimally invasive surgery.
Virtuoso Surgical	\$179,820	Seed	USA	Surgical / Interventional Systems	Virtuoso Surgical specializes in developing endoscopic robotic tools for minimally invasive surgery.
Weilan Intelligent	\$13,713,583	Series A	China	Quadrupeds	Weilan Intelligent specializes in building all-purpose, legged robots for homes and businesses.
Wilder Systems	\$8,559,086	Other	USA	Articulated Robots, Indoor Mobile Platforms	Wilder Systems provides robotics and automation solutions for aircraft manufacturers.
Zero Zero Robotics	\$1,700,000	Other	China	Drones	Zero Zero Robotics produces a small, autonomous drone called the Hover Camera.
Zhiyuan Robotics	Estimated	Series A	China	Humanoids / Bipeds	Zhiyuan Robotics develops general-purpose humanoid robots.
